CEREAL, PULSES & CEREAL PRODUCTS

Cereals form a core component of global food systems and are widely used across retail, food processing, milling, and industrial applications. India is a reliable sourcing origin for cereals due to its agricultural diversity, large-scale production, and established export supply chains.

ABOUT US

We provide accurate, reliable & NABL-accredited testing services for cereals, pulses, and processed food products. Our advanced lab ensures compliance with national & international food safety standards.

WHY TESTING MATTERS

- ⚠️ Prevent contamination risks
- ⚠️ Ensure regulatory compliance (FSSAI)
- ⚠️ Improve product quality & shelf life
- ⚠️ Build customer trust

OUR TESTING SERVICES

Microbiological Testing

- Clostridium Perfringenes
- Enterobacteriaceae
- Faecal Streptococci
- Staphylococcus aureus (Coagulase +ve)
- Vibrio Cholerae
- Vibrio Parahaemolyticus
- Bacillus cereus
- Bacterial Count
- Coliform
- E.Coli
- Listeria Monocytogenes
- Salmonella
- Shigella
- Staphylococcus aureus
- Yeast & Mould

Chemical Analysis

- Nutritional Parameters
- Proximate Parameters
- Melamine
- Aflatoxins (B1, B2, G1, G2)
- Ochratoxin A
- Deoxynivalenol (DON)
- Heavy Metals
- Minerals
- Pesticide Residues
- Food Additives
- Adulterants Adulteration
- Fatty Acid Profile
- Residual Hexane
- Vitamins
- Uric Acid
- Ethylene Oxide
- (Sum of Ethylene Oxide & 2-Chloroethanol)
- Safrole (NOTS)
- Agaric Acid (NOTS)
- Glycemic Index

Ensure Your Product Meets Safety Standards
