YOUR TRUST OUR ASSURANCE.**

Fruits & Vegetable Products Testing

Fruit is the nutrient rich food which helps in maintaining health of the human body. Fruits also contains fiber, potassium that can reduce the chances of many diseases. India is one of the largest producer of fruits and vegetables in the world. The cases of food borne illness are also increasing every year, which needs our special attention. Consumption of contaminated fruits, vegetables and their products can lead to food poisoning.

We provide reliable and accurate testing services for fruits and vegetable products to ensure food safety, quality, and regulatory compliance. Our NABL-accredited laboratory supports manufacturers, exporters, and food businesses across India.

Fruit & Fruit Products/ Vegetable and Vegetable Products

Key Testing Parameters

1 Chemical Analysis

- Nutritional parameters
